In the event of a more serious accident specialist treatment would be required and the school would, in these instances, call the parent/carer to discuss. Parents will always receive an accident report form informing them of any treatment given to their child and in certain circumstances a phone call home will also be made.

Toilet Accidents in School

Children do occasionally have an 'accident' when they go to the toilet. The outcomes can range from drying a wet area to a complete change of clothing being required. The action needed is obviously in a very personal area and we do have a policy for intimate care. The policy is available from school.

If a child soils themselves our policy is to help them clean themselves. If necessary, alternative clean underwear will be provided. Parents will be informed of what has happened. If staff consider that the soiling is such that the child needs a shower we will contact parents so that this can be done at home.

If a child's accident becomes frequent or regular we will guide parents to speak with our school nurse who will be more than happy to offer support and advice.

We are seeking your approval to act, according to our policy, should your child have a 'toilet related accident' whilst at school. Obviously if you do not agree with the policy your child will have to wait to be properly sorted out until such time as we can make contact with yourselves and someone arrives to collect your child.

Should it be necessary, I give permission for my child to receive intimate care (e.g. help with changing or following toileting)
